Presented by:
Mr. Kevin Gerald
Deputy Portfolio
Manager Business and
Force Support Portfolio

BFS Portfolio Organization

Business and Force Support (BFS) Portfolio

Portfolio Overview

The BFS Portfolio rapidly delivers capability and solutions to meet the business information technology (IT) needs of Navy, Marine Corps, DoD, and federal agencies. From battlefield to homeland, at sea and on shore, BFS uses the power of IT to deliver Information Dominance over a wide range of business operations:

- Navy manpower, personnel, and pay
- Navy/Marine Corps logistics and supply management
- Navy/DoD health systems, networks, infrastructure, and security
- Navy/DoD/federal physical and electronic security
- DoD automated fuel infrastructure management
- Defense travel
- Veterans benefits
- Strategic planning

Customers

- PEO EIS (PMW 205, PMW 220, PMW 240)
- PEO C4I (PMW 150)
- Navy/Marine Corps Commands (force protection)
- Commander, Navy Installations Command (CNIC)
- Navy Bureau of Medicine and Surgery (BUMED)
- Defense Logistics Agency Energy
- Defense Health Agency
- Dept. of Veterans Affairs

Sub-Portfolios

- PEO EIS Systems and Applications
- PMW 150 Logistics Systems and Applications
- Health Systems
- Force Protection Solutions
- Defense Logistics Agency (DLA) Systems and Applications
- Business Solutions

Program Executive Office for Enterprise Information Systems (PEO EIS)

BFS Portfolio provides acquisition and engineering services in support of three major PEO EIS acquisition programs and their respective Program Offices: PMW 205 Naval Enterprise Networks (NEN); PMW 220 Navy Enterprise Business Solutions; PMW 240 Sea Warrior.

▼ Business Opportunities

- Naval Enterprise Networks (NEN)
 - Next Generation Enterprise Network (NGEN) IT Service Management (ITSM) Model implementation
 - NEN In-service Engineering Agent (ISEA) services
 - Innovation Cell assessments
 - NGEN Mobility strategy pilots and prototypes
- Navy Enterprise Business Solutions
 - Navy Enterprise Resource Planning (ERP) sustainment services and infrastructure upgrades
 - Standard Labor Data Collection and Distribution Application (SLDCADA) technical support
 - Electronic Procurement System (EPS) acquisition support and engineering services
- Sea Warrior
 - Potential Navy Information Application Product Suite (NIAPS)
 - Distance Support

Defense Health Agency (DHA)

BFS Portfolio designs, develops, engineers, secures, sustains, and deploys clinical IT systems, enterprise IT systems, networks, and infrastructure and provides data management and information assurance in support of the 9.7 million beneficiaries of the Military Health System at Navy, Air Force, and Army hospitals and clinics worldwide in support of the Defense Health Agency.

▼ Business Opportunities

- IT infrastructure services
- Information assurance
- Clinical infrastructure modernization
- Health systems security engineering and computer network defense
- Medical information delivery
- Data warehousing and informatics
- Data mapping
- Health applications engineering and installation
- Medical mobile applications development

Program Executive Officer Defense Healthcare Mgmt. Systems (PEO DHMS)

BFS Portfolio is supporting PEO DHMS in Department of Defense modernization efforts known as the DoD Healthcare Management Systems Modernization (DHMSM) which will replace the current DoD legacy military health systems with industry leading capabilities.

▼ Business Opportunities

- PEO DHMS staff support
 - logistics planning documents, test plan reviews, documentation of engineering and governance processes, development of white papers, data management and governance process definitions
- Interagency Prog. Office data interoperability
 - Data dictionary and data standards reviews, data management white papers, data interoperability strategies and plans, data analysis
- Defense Medical Info. Exchange (DMIX)
 - Technical white papers, project schedules, test plan inputs, architecture strategy papers and drawings, engineering studies, requirements analysis, interoperability studies, certification and accreditation planning, risk management and mitigation reports, software defect reports and analysis, migration studies and strategies
- DHMSM
 - Information Assurance rqmts and vulnerability assessments, test plans, white papers

Department of Veterans Affairs (VA)

BFS Portfolio is supporting VA in the development and deployment of the Veterans Benefits Management System (VBMS), a Web-based, VA enterprise electronic claims solution. VBMS is the technology component of VA's strategy to eliminate the backlog of all compensation/pension benefit claims over 125 days old, and to improve accuracy to 98% or greater by the end of FY15.

▼ Business Opportunities

- Agile software design/development
- Ongoing system capability enhancements
- Architecture development
- Information assurance
- Configuration management
- Testing
- Hosting support

Navy Fleet and Business Systems

BFS Portfolio delivers engineering and sustainment services for numerous DON Fleet and business systems that deliver critical capability to Warfighters and decision makers.

▼ Business Opportunities

- Fleet logistics and acquisition systems
 - Support Equipment Mgmt. System (SEMS), the sole automated source of in-use Naval Aviation Support Equipment asset information for determining allowances and excess/deficit status.
 - Naval Air Systems Command (NAVAIR) Metrology and Calibration (METCAL) engineering services to support NAVAIR's METCAL program office, which has cognizance over calibration standards equipment for the Navy.
 - Expeditionary Pack-up Kit (EPUK), a market demand-pull system for aircraft maintenance parts across a nodal logistics support chain in support of Marine expeditionary forces.
 - Navy Environmental Information Management System (EIMS), the single authoritative source system for env. Info. for the Fleet.
 - ASN RDA Information System (RDAIS), the Navy's system for monitoring/reporting acquisition programs.
- Financial management systems
 - Business process re-engineering and modernization of the Secretariat Automated Resource Mgmt Information System (SARMIS), DON / Assistant for Administration repository of budget formulation and execution data, and enterprise consolidation of financial mgmt. systems
 - Navy Reserve Web portal mgmt and technical support

Better Business Forecasting

- ▼ Progress is underway to develop a more structured process for business forecasting
 - SSC Atlantic Portfolios are working to use authoritative sources and standardize forecasting methods across all portfolios
 - Uses more internal methodologies and artifacts with environmental scans
 - Will lead to more accurate forecasting and therefore will lead to better demands to industry
 - Routine updates
 - Structured
 - Will feed the Project Procurement Strategy for projects

We Deliver Information Dominance

“Enable warfighters to secure America
and promote global freedom.”
