Space and Naval Warfare Systems Command Awards Contract

SAN DIEGO – Serco, Inc., of Reston, Va. is being awarded a \$852,071,893 cost-plus-incentive-fee, fixed-price-incentive (firm target), firm-fixed-price, and cost-plus-fixed-fee contract (N00039-11-D-0032). Task orders under this multiple award contract (MAC) will achieve the successful installation and operational certification of Command, Control, Communications, Computers, Intelligence, Surveillance and Reconnaissance (C4ISR) systems by the Space and Naval Warfare Systems Centers (SPAWARSYSCENs) for PEO (C4I & Space), Space and Naval Warfare Systems Command (SPAWARSYSCOM), and other prospective U.S. Government and Foreign Military Sales (FMS) customers. The C4ISR systems are produced under various production contracts (separate from this contract) and are delivered as Government Furnished Equipment (GFE) to this contract for installation onboard surface ships, submarines, and shore stations located worldwide. This contract includes one (1) option which, if exercised, would bring the cumulative value of this contract to an estimated \$1,405,347,348. Work will be performed aboard U.S. Navy platforms on both the East and West Coasts as well as locations worldwide, and is expected to be completed by January 2014. If all options are exercised, work could continue until January 2016. Contract funds will not expire at the end of the current fiscal year.

This contract was competitively procured with full and open competition. Four (4) offers were received via the Commerce Business Daily's Federal Business Opportunities website and the SPAWAR e-Commerce Central Website. The Space and Naval Warfare Systems Command, San Diego, Calif., is the contracting activity (N00039-11-D-0032).
