Space and Naval Warfare Systems Command Awards Contract

SAN DIEGO – Raytheon Network Centric Systems, Largo, Fla. is being awarded an \$8,731,406 modification to a previously awarded production contract (N00039-12-C-0001) for Joint Tactical Terminal (JTT) AN/USC-62 radios. These radios will provide the Navy with vital integrated broadcast service receive and transmit capabilities in support of Ballistic Missile Defense operations.

This contract includes options which, if exercised, would bring the cumulative value of this contract to an estimated \$34,659,763.

Work will be performed in Largo, Fla., and is expected to be completed by November 2013. If all options are exercised, work could continue until November 2017.

Contract funds will not expire at the end of the current fiscal year.

This contract was not competitively procured, because it is a sole source acquisition.

The Space and Naval Warfare Systems Command, San Diego, Calif., is the contracting activity.
